Coming from Albuquerque take I40 East to exit 175. Take New Mexico 14 North from the exit. You will see green and white mile markers on the right side of the road. Look for the number 28, we are about 3/4 of a mile beyond this point. The studio is on the left in a converted railroad car. The casita is located behind studio and next to the main house.

Coming from Santa Fe take Cerrillos Road which becomes New Mexico 14 South at I25. Madrid is about 23 miles south of that point. In Madrid look for the Mine Shaft Tavern on the left in the middle of an S curve. We are about 1/4 mile further South. The studio is on the right in a converted railroad car. The casita is located behind studio and next to the main house.
